Plant operator report- TV and snake camera... We may be able to hook in to the bid for the snake camera and cleaning for the lines. Isaac will continue working with Andrea.

- DEP non-compliance- We have received a letter from DEP regarding a mandatory enforcement conference that the sewer commission must attend on 11/24/2020
- Interviews and job applications will be tabled for next week when all three commissioners can meet.
- Sludge truck has an issue with going over railroad tracks. The commission advises Isaac to take it up with the railroad. Dan Gray sort of agrees with this.
